

PSY 222 Research Methods
Class Research Study: Fall 2024

Instructions

Thank you for volunteering to participate in our class research study.

The purpose of this study is to learn more about picture perception.

You will see a movie with 16 images. Each image will be shown for 10 seconds.

Try to remember each image so you can recognize it later.

Below is a sample image.

PSY 222 Research Methods
Class Research Study: Fall 2024

Instructions

Thank you for volunteering to participate in our class research study.

The purpose of this study is to learn more about picture perception.

You will see a movie with 16 images. Each image will be shown for 10 seconds.

For each image, tell the experimenter how much you like the image. Use a 1 to 10 rating scale, where 1 means “I don’t like it at all” and 10 means “I like it a lot.” Use any whole number from 1 to 10 to indicate how much you like the image.

Below is a sample image.

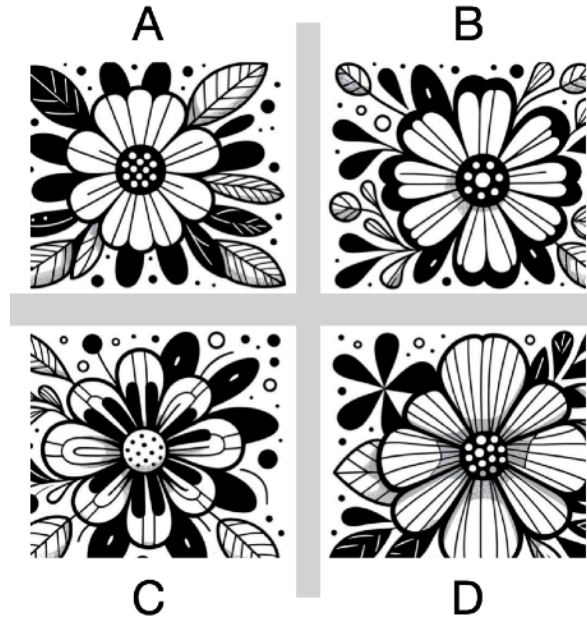

Ratings:

1. ____ 2. ____ 3. ____ 4. ____ 5. ____ 6. ____ 7. ____ 8. ____

9. ____ 10. ____ 11. ____ 12. ____ 13. ____ 14. ____ 15. ____ 16. ____

This is the last part of the study.

You will see 16 sets of images. Each set is composed of four images. Here is an example:

For each set, tell the experimenter which image (A, B, C, or D) is the one you saw before.

Each set of images will be shown for 10 seconds.

Test answers:

1. _____ 2. _____ 3. _____ 4. _____ 5. _____ 6. _____ 7. _____ 8. _____

9. _____ 10. _____ 11. _____ 12. _____ 13. _____ 14. _____ 15. _____ 16. _____

Participant's age: _____

Participant's gender: _____
